11 Our Details

19 Our Look

A QUALITY BICYCLE, CAREFULLY ASSEMBLED AND FIT TO YOU,
WILL BE THE SAFEST, MOST DURABLE AND FUN BICYCLE TO RIDE.

THAT'S WHY WE EXIST.

OUR LOGO

Our Logo

The mark is made up of gear sections to form a shield. The shield is a look back at the history of bikes when they displayed emblems of their logo on the front of every bike they made. Also, it represents the safety and quality of bike a customer will get from Eddy's. The type is a modified version of Knockout made to be more streamline, symbolizing the current day bike racers.

Clear Space

Always maintain the minimum amount of clear space around the Eddy's signature as shown in the demonstration above. This will ensure that the Eddy's signature is always properly staged and properly visible.

The 'D' from Eddy's is to be scaled half size and must be maintained around the entire Eddy's signature.

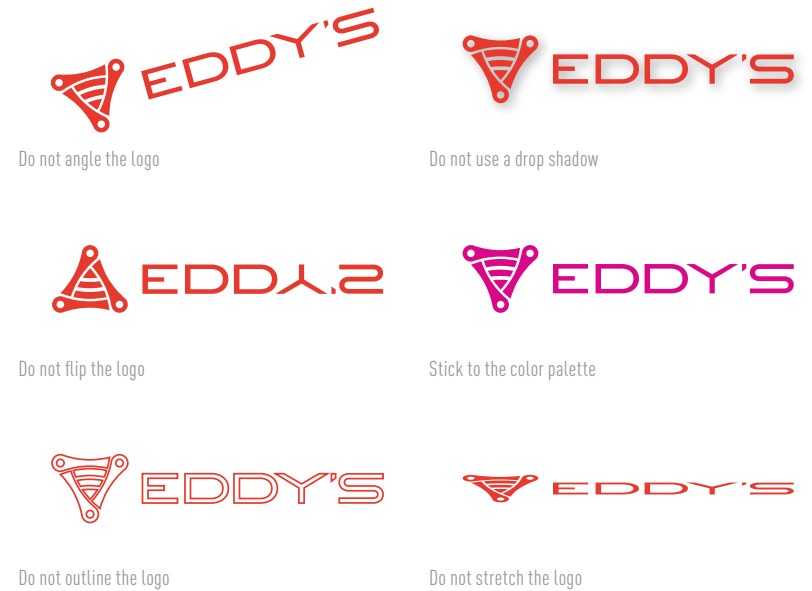

OUR DETAILS

What to do

The examples below show correct color usage for the Eddy's signature and background colors. Contact Eddy's if you have specific questions regarding use of the Eddy's signature on other background colors.

What not to do

Our Typeface

Typography plays a major role in shaping a brand. To help create a consistent identity for all printed and electronic materials generated by Eddy's, a standard family of typefaces has been chosen for exclusive use in all media. DIN Condensed Medium and Bold is to be used for all headlines while Avenir Book is to be used for all body copy.

Aa

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
(.,:;?!\$&'@)0123456789

Primary Colors

The proper use of color enhances the communication of the Eddy’s identity. Always use the correct color specifications when using either four-color process reproduction, match color reproduction, RBG reproduction, or hexadecimal reproduction.

Secondary Colors

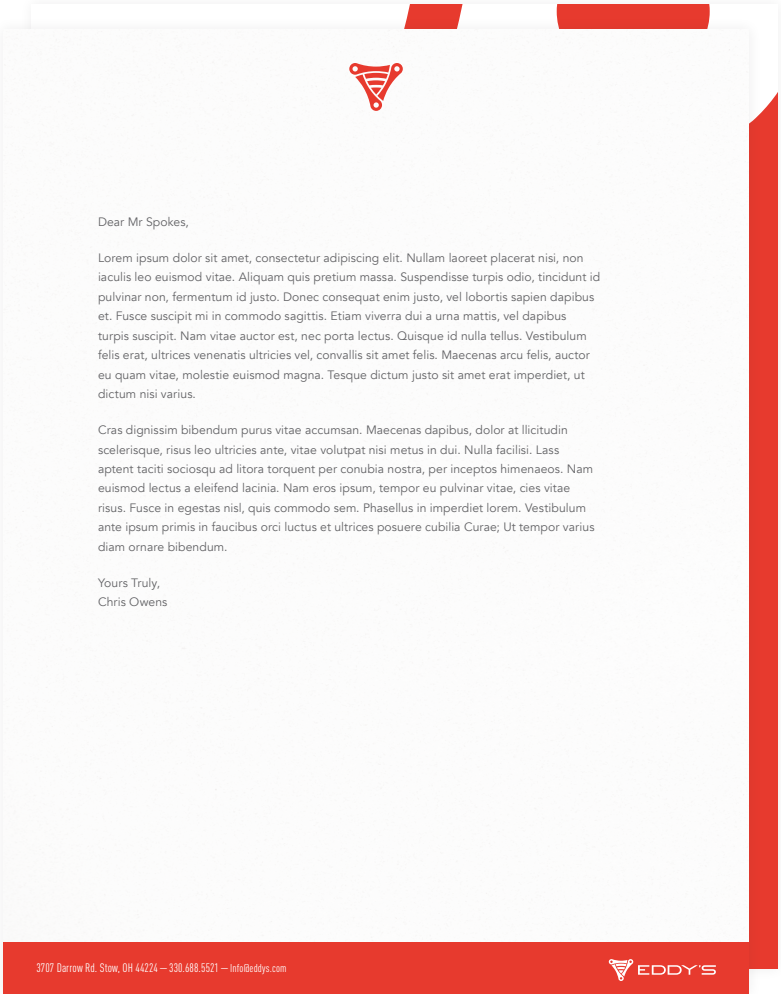

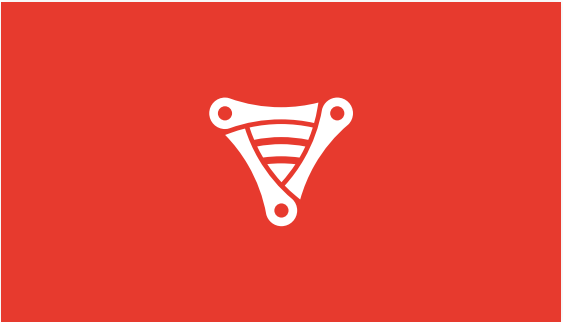

CMKY	C4 M91 Y91 K0	C42 M35 Y35 K1	C13 M12 Y11 K0

2014 CANNONDALE TRIGGER 29 3

**TWO PERSONALITIES...AND
THEY'RE BOTH BAD-ASS**

Thanks to its OverMountain dual-travel DNA, the Trigger 29 gives you the most out of each pedal stroke on rocky climbs with 100mm of travel, get down's compromise when descents get ready with 130mm of seemingly bottomless confidence. Imagine being able to pick any line, up or down, and charge it at full speed - that's what the Trigger 29 is all about.

INTRODUCING THE NEW 2014
**SPECIALIZED S-WORKS
STUMPJUMPER FSR CARBON 29**

The impressively low weight and proven performance of Specialized's S-Works Stumpjumper FSR Carbon 29 may make it the ultimate trail bike for smoking your buddies up and down. This carbon dream rig features 130mm of Brain-controlled, FSR travel in the rear and a 130mm-travel, Kashima-Coated Fox 34 CTD up front. Together they deliver the supreme combo of climbing

efficiency and hard-charging downhill confidence. Up or down, the flyweight Roval carbon wheels spin up fast and are impeccably stiff for amazing cornering. And, this S-Works is outfitted with SRAM's 1x11 XX1 for flawless shifting, mega-powerful Formula discs for insane braking, and a whole gamut of Specialized's renowned parts, including an internally routed dropper post.
