3 BROTHERS CORNER TAVERN

1 SPORTY. 1 ADVENTUROUS. 1 DOWNRIGHT ELECTRIC.

Yet all simply irresistible; not to mention enterprising. Hence the 3 Brothers Corner Tavern. A cool, little spot on the corner of Wales and Fulton where families meet. Friends always find a seat and everyone just simply loves to eat.

But these brothers aren't the only ones behind this family affair. Like with all good men, you can bet there's a sister, mister, and she knows a thing or three about keeping it all in good taste.

OUR MISSION

At 3 Brothers Corner Tavern our mission is to celebrate family and brotherhood. *Familyhood*. And everything great about "that corner place" everyone's talking about in your neighborhood.

THE LOOK & LOGO

MASTER LOGO

The 3 Brothers Corner Tavern logo is the visual representation of the fun, quirky restaurant they aim to be. This is the primary graphic representation of 3 Brothers corner tavern, therefore correct usage is vital in maintaining proper brand standards.

The logo features "3 Brothers" written in Geared Slab extra bold and "Corner Tavern" in Gotham Bold. Three figures represent each of the brothers, one sporty, one adventurous, and one electric.

Reproduction of this logo may only be completed with permission from 3 Brothers Corner Tavern using the electronic art file they provide. To obtain permission and an electronic art file, please contact 3 Brothers Corner Tavern.

Clear Space

100 px width Digital

1 inch width print

CLEAR SPACE & SIZE

CLEAR SPACE

The proper amount of clear space must be used around the signature at all times, both in print, web, and digital mediums.

In order to determine the correct amount of clear space, the "3" from the logo is used as a measurement tool. The "3" should be placed on all four sides, creating an equal space around the signature, proportional to its size.

SIZE

In print formats, the signature should never be used smaller than 1 inch wide. For digital mediums, the logo should maintain a minimum width of 100px.

TYPOGRAPHY

Typography plays an important role in shaping the 3 Brothers brand. Headlines, sub-headlines, and body copy each have their own specific typeface and treatment.

Geared Slab was chosen because of its modern take on a slab-serif, reminiscent of woodcut tavern signs from the past. The Gotham typographic family was chosen to accent Geared Slab, providing a complementary feeling of vintage and contemporary.

The typeface used for headlines throughout the brand is Geared Slab Extra Bold. Sub headlines should use Gotham bold in all capital letters. Body copy should be written in Gotham Light.

COLOR

3 Brothers Corner Tavern color palette was picked to drive home the fun and friendly atmosphere of the restaurant. Color is an essential element used to communicate the 3 Brothers Corner Tavern identity and should be used in addition to photography, discussed on the following page.

This color scheme should be used whenever possible. The correct conversion to hexadecimal, CMYK, and RGB should always be used, and are provided on the right hand page. A 10% tint of Yellow Pantone 124 C is used as a background color instead of stark white, in an effort to create a warm and inviting tone.

PHOTOGRAPHY

Photography is used in both print and digital applications. It is very important that the photography picked is cohesive with the marketing material already established and sets the same tone.

Burgers, wings, and beer should be what is represented the most in photography. The photos should have a warm tone, making them feel inviting and food friendly. 3 Brothers Corner Tavern offers large portions, so the photography should reflect that.

RULES OF USAGE

TEXT ONLY

CORRECT USES

The examples shown here are the proper way to use the 3 Brothers Corner Tavern signature.

When the logo is used in one color, it may be used in either yellow, red, teal, black or white, as specified in the colors section.

The 3 Brothers Corner Tavern text only logo should be used exclusively for digital mediums.

INCORRECT USES

The Images to the left show incorrect uses of the 3 Brothers Corner Tavern signature. The logo should never be used in any of these manners under any circumstances.

Maintaining proper guidelines when using the signature is imperative to keeping the 3 Brothers identity cohesive. Any applications where an incorrect signature is used will be removed and discarded immediately.
