

Quick Scan & Studio Time

Class 3 · Wednesday, September 2, 2026

Quick Scan

Before You Sketch, Understand the Business

- A great mark for the wrong business is still wrong
- Rushing to sketch before you understand the business shows
- Four things to check, for each of your five businesses

What to Look For

- What do they sell?
- Who's the audience?
- Who are their competitors?
- What sets them apart?

Keep It Quick

- This is a scan, not a deep dive
- This is only for the “bad” brands from Mark Comparisons
- We will do a deeper dive once we narrow from 5 to 2
- Log it in your process book

Vibe Check

Vibe Exploration

- Sketch, loose and disposable
- Play with typefaces in Illustrator
- Still all five businesses, no narrowing yet
- Nothing here is precious, throw it away if it's not working
- These sketches go in your process book too

Studio Time

Rest of Class is Studio Time

- Quick-scan research and vibe exploration, both open
- Work at your own pace, no fixed order between them
- I'll circulate and check in with everyone

Before Next Class

- Keep researching and exploring at home
- Monday, Sep 7: no class, Labor Day
- Wednesday, Sep 9: be ready to decide which 2 businesses you want to work with

Questions?

See you Wednesday, September 9.
